

Light Class

Compact Multiswitch 5 in 8, 12, 16

SAT IF

SMS 5807 NF, SMS 51207 NF, SMS 51607 NF

For 8, 12, or 16 subscribers.

SAT IF:

- Special amplifier/filter design to improve the intermodulation quality of the multiswitch.
- LNB supply voltage selectable for Quattro and QUAD LNB.
- Due to a new design concept the units offers a high output level.
- The multiswitches support standby mode. Both the SAT IF amplifier, as well as the remote power supply of the LNB is only active if at least one receiver provides a supply voltage to its multiswitch outlet.

Terrestrial:

- Passive terrestrial path in the frequency range of 5...862 MHz (Triple Play).

Miscellaneous:

- The devices are equipped with a switched-mode power supply.
